SUMMARY

Experienced Full stack Developer in both frontend and backend development. Proficiency in Python OOP, React, Node.js, SQL databases and AWS cloud technologies. Background in project management for SaaS brings me excellent communication skills, ability to learn and work fast and strong "get things done" approach.

TECHNICAL SKILLS

Node.js, React, Python, SQL, AWS, Git/GitHub, Figma, Jira

PROJECTS

PRISSET (Django, React, PostgreSQL, Matplot, Plotly) - [Github](#) | [Demo](#)

- The analytics platform for monitoring global energy rules and rewards, helping energy industry players understand changes, achieve green goals, and benefit from new opportunities and innovation. Code on the server-side is confidential under an NDA.

SelfishTLV (Node.js, React, Python, PostgreSQL, Google Map API) - [Github](#) | [Demo](#)

- Self-guided tours in Tel-Aviv for new olims with a predefined route on interactive Google map.
